

Edible bubbles able to battle pollution

How to deal with plastic bottles in the ocean?

The problem ?

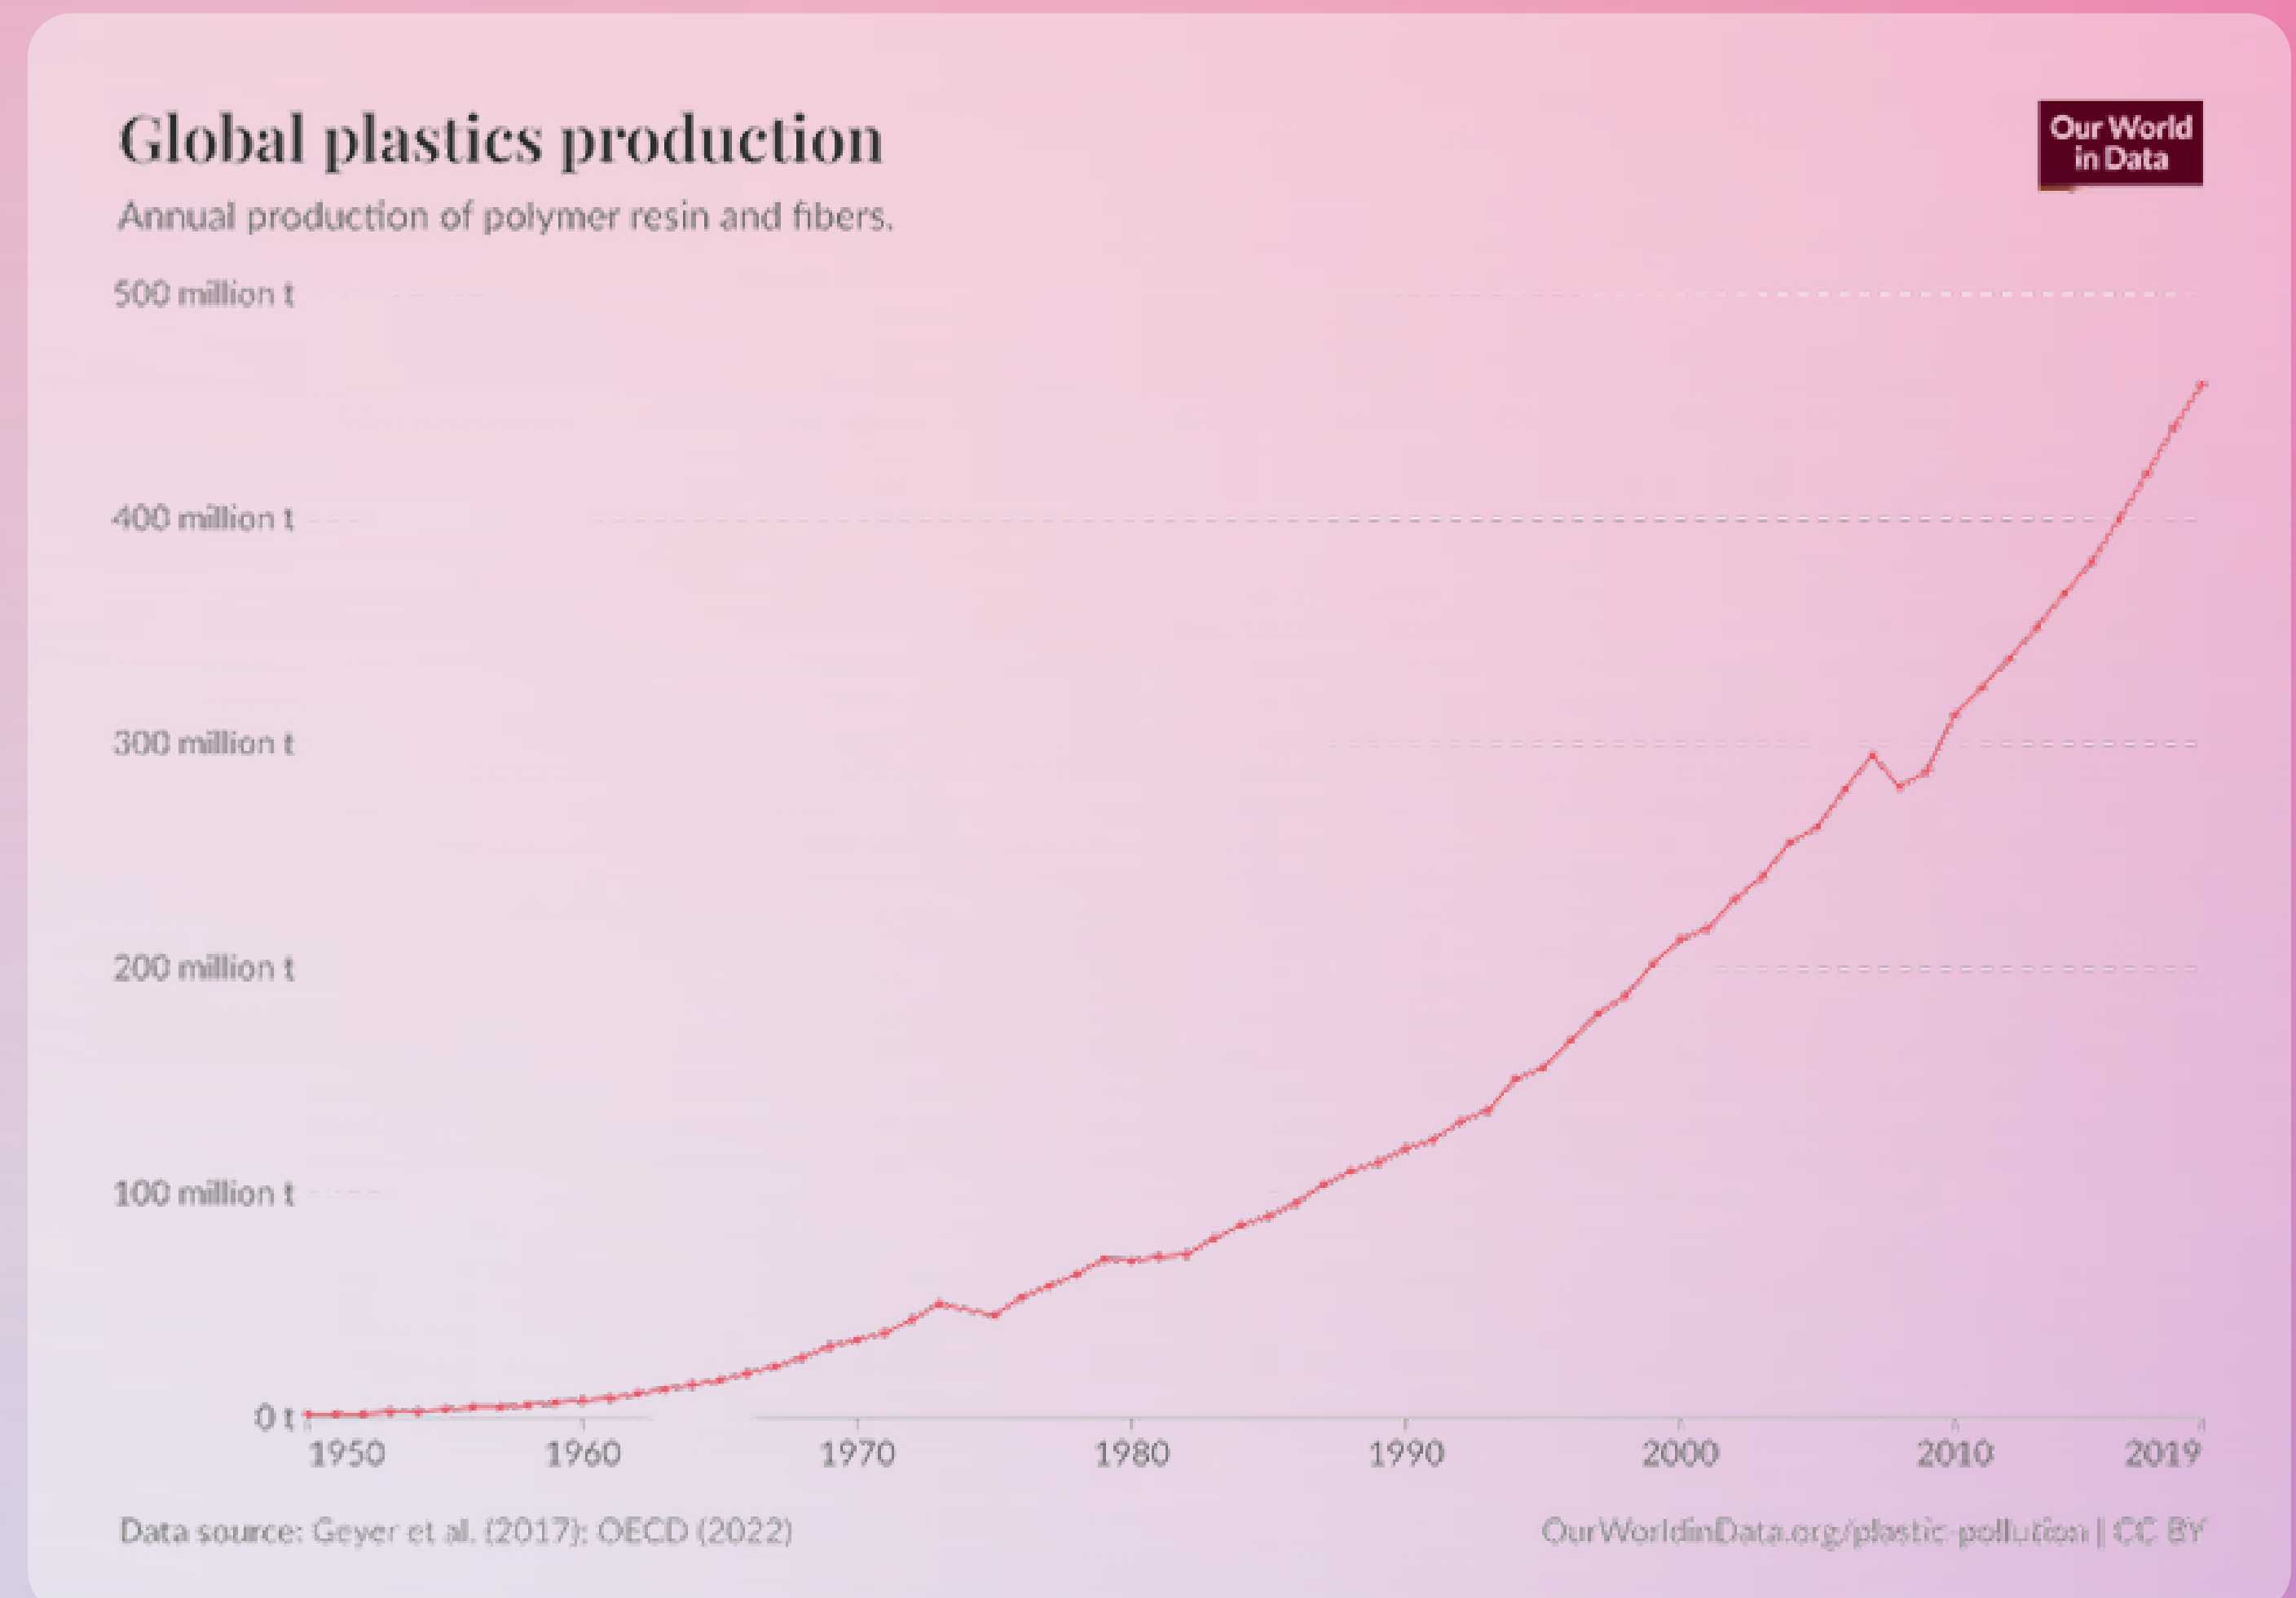

89 billion: the number of plastic bottles sold each year

450 years: the time it takes for plastic to decompose

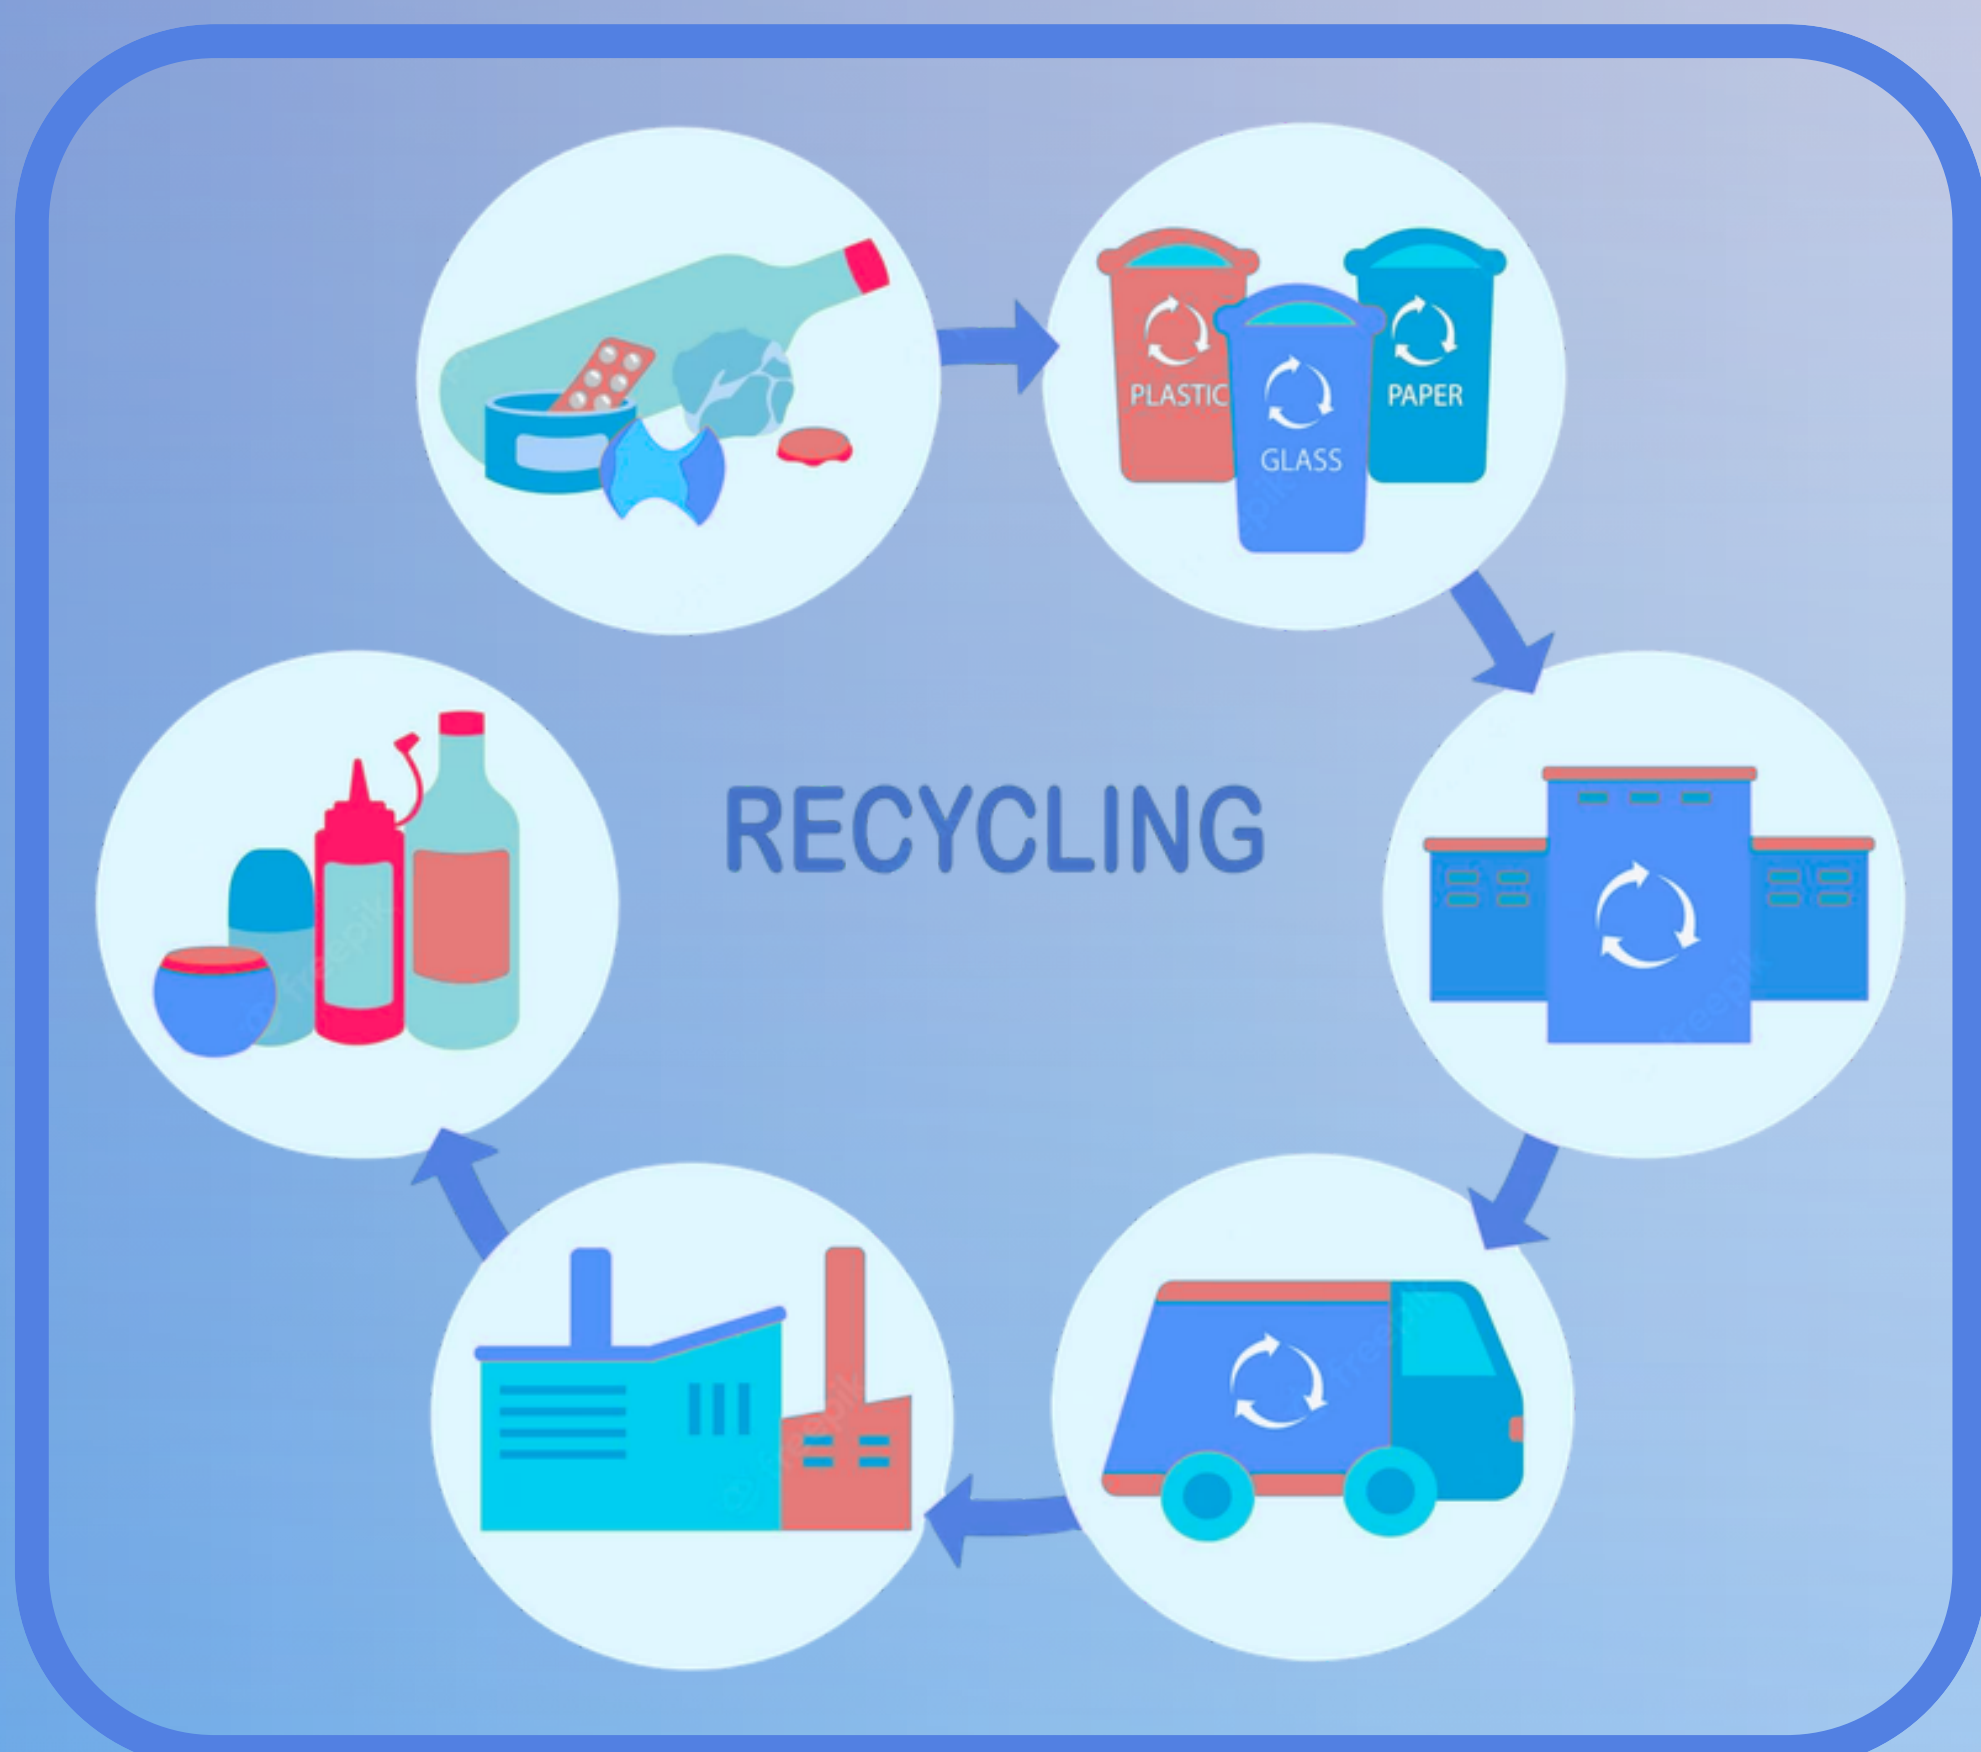

1 million: the amount of plastic bottles produced every minute

30% : the percentage of plastic bottles recycled

Jobimpact.fr

The solutions !

Oohowater.com

How it works

Prepare an alginate and a calcium bath.

Dip me in alginate and calcium.

Freeze me !

Rince and taste me !

THE END
